

A Fielders attached or freestanding Centenary Carport, Verandah or Patio is the perfect finishing touch to your home. Sturdy yet stylish, the Centenary range will add value and living space to your home - whether as a sheltered outdoor area for family and friends, for special entertaining occasions, or covered protection for your car, a Centenary addition can bring the outside in. Compare for yourself, you will find the Centenary range gives you a lot more for your money. Now That's Entertaining!

The Fielders Centenary range utilises a unique chamfered two-piece double thickness box beam, which provides greater strength with stylish looks for that valuable addition to your home. The beams and columns come pre-cut and punched to suit individual design applications as well as being protectively packaged to eliminate scratching or damage.

The Fielders Centenary range provides a level of flexibility unmatched by other manufacturers. You can specify your carport in any length and width beyond 10 metres. Roofing comes in a modern range of Colorbond® steel colours with steel, polycarbonate and gable infill profiles. Plus the range is engineered to the latest Australian Standards (AS4600) to ensure compliance with safety and building codes and to simplify the council approval process.

Fielders Centenary steel is supplied exclusively by BlueScope Steel. Colorbond®, BlueScope, the BlueScope brand mark and ® colour names are registered trademarks of BlueScope Steel Ltd.

Dutch Gable

The Fielders Centenary Dutch Gable is a very popular addition to any home. Whether being used as a freestanding carport for your car, or as an attached unit for entertaining, this product will be a valuable asset to any home. With roof pitches of 15, 20, 25 and 30 degrees, there is a pitch to complement any existing house roof. Our large 158mm portal beams enable opening widths beyond 10 metres, and Fielders unique structural side beam eliminates unsightly columns.

Fielders Centenary Dutch Gable comes pre-cut and punched to make installation that much easier. Its clean lines and stylish appearance make your Centenary Carport better value for money.

**Features**

- Attached or freestanding designs available.
- Quick and easy installation.
- No unsightly columns.
- Range of colours available.
- All structural components made from high tensile steel.

Hip Roof

The unique Fielders Centenary Hip Roof is available as an attached or freestanding unit and comes in all the popular roof pitches of 15, 20, 25 and 30 degrees. Like the other products in the Centenary range, the Hip Roof uses both 108mm and 158mm portals, enabling spans beyond 10 metres. The Hip Roof product combines the elegance of high gloss pre painted steel with the traditional design of a hip roof carport. Previously only ever attempted in timber, the unique design of the Centenary beam allows Fielders to bring you the first pre-engineered all coloured steel Hip Roof Carport.

**Features**

- Available in attached or freestanding designs.
- High tensile steel posts and beams for design flexibility.
- Pre-engineered for ease in council approval.
- Engineered up to a height of 4 metres.

Freespan

The Fielders Freespan carport or verandah is an exciting product which is available as a pitched verandah or a carport, the Freespan design aims to suit every application. Like other products in the Centenary range, the Freespan uses both 108mm and 158mm portals, enabling greater flexibility. Available with a high gloss finish, in either Hi-Rib or Centenary Deck roofing, the Centenary Freespan is sure to add value to your home.

The new Fielders Freespan design combines the strength of the Centenary box beams with the wide-span Hi-Rib or Centenary Deck roofing, to provide clean uncluttered gables. The slim composite ridge beam provides maximum strength and eliminates ugly shadows. This design is available as a single gable or combined with flat roof sections.

**Features**

- No internal roof purlins.
- Range of colours and pitches.
- Choice of Centenary Deck or Hi-Rib roofing.
- Available as a pitched verandah or carport.
- Large spans to suit your individual needs.

Gable End

The Fielders Centenary Gable End range is engineered for strength. Available in both 108mm and 158mm portals which allow for gable widths beyond 10 metres. The gable unit can be attached to an existing structure or installed as a freestanding unit. Centenary's gables are available in 15, 20, 25 or 30 degree roof pitches, the greatest variety of pre-engineered gables on the market today.

All gables have the option of a full polycarbonate, partial polycarbonate or full Colorbond® steel roof. The unit has the flexibility of any gutter style, varying infill types and decorative finishes, such as finials. A Fielders Centenary Gable End is designed to complement any style of house.

**Features**

- Attached or freestanding designs available.
- Large spans to suit your individual needs.
- Range of roof & gutter profiles.
- No unsightly collar ties.
- Engineered up to a height of 4 metres.

Flat Roof

The Fielders Centenary Flat Roof is a stylish and attractive addition to any home. Whether it is attached or freestanding, this product is engineered for strength. It features colour coated external brackets, which make installations that much easier. The Flat Roof Verandah is extremely flexible in its design allowing various roofing and guttering profiles to be used including the new Fascia Quad Gutter. The high gloss, high tensile roofing features a mirrored ceiling like finish.

The adaptability of the Centenary Flat Roof is evident when it is combined with Fielders pitched section units. The pitched section product can be utilised as a pitched section only, or the more popular pitched with flat. Using both 108mm and 158mm beams, the spans and flexibility achieved meet all customer expectations. With a high gloss finish all over, this product is sure to be looking good all year around.

The polycarbonate and corrugated flat roof designs are unique to Centenary, combining the double thickness beam with Fielders smaller 65mm beam, Centenary offers the first pre-engineered polycarbonate and corrugated flat roof. This product looks stylish in design and replaces what could only ever be done previously in timber.

**Features**

- Attached or freestanding designs available.
- Flexibility in design and stylish in appearance.
- All brackets manufactured from high tensile steel.
- Double rolled beam provides larger spans.
- Choice of different gutter and roof profiles.
- External components, allow easy installation.
